Issue 13

Teaching and Learning This Week

This week the teaching and learning has been based around the theme 'Good to be me - Keeping Healthy'. The children have sorted foods into food groups, created a 'Belly Monster' that rumbles in their tummy and written about what they do to keep healthy. They have also had the opportunity to engage with other 'Good to be - Keeping Healthy' themed learning activities.

Ideas for learning at home

Focus on adding one more or one less to a number. This can initially be to 10 and then upto 20.

Focus on writing the tricky words I, the, to, no and go.

Outdoor Learning

There will be outdoor learning tomorrow Friday 8 December 2018.

Please send your child in uniform and their outdoor learning clothes in a separate bag.

This will be the last outdoor learning session this half term.

Thank you ☺

P.E. Bags

The children will require a P.E. kit after Christmas. This must contain a white t-shirt and black shorts. They do not require pumps or trainers.

Costumes

Please remember to send your costumes for Whoops-a-Daisy Angel into school by Monday 10 December 2018.

Uniform

Please ensure your children are wearing warm uniform for school. They do spend periods of time outside and we would like them to be as warm as possible.
Thank you.

Letters and sounds

Red Room and Blue Room:

Learn the phoneme and graphemes for f & l. The children have been listening for these sounds in words, exploring how we can read words with these phonemes (robot arms - segmenting and blending) and practising writing the grapheme for f & l.

Number Groups

This week we have continued to use the part whole models to add numbers together. Children have been given two 1-digit numbers as parts of the model to add together to create the whole or total. Children have continued to do this practically using large models and resources chosen by them; such as Numicon pegs, counters, Numicon pieces and counting kids.
